EXAMINER'S AMENDMENT

In the specification:

On page 1 before paragraph "[0001]" the insertion submitted by applicant in the amendment dated 7-19-04 has been amended as follows and should be added prior to paragraph [0001] and the section heading "**BACKGROUND OF THE INVENTION**":

RELATED CASE

This application is a continuation of U.S. Patent Application No. 09/856,311, filed August 21, 2001, now abandoned, which is derived from International (PCT) Application No. PCT/FR99/02790, which designated the United States and which was assigned an International Filing date of November 15, 1999.

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught the clamping of the laminations together rather than the soldering or brazing or bonding of the same together wherein in the finished assembly one clamped the assembly together and the clamps were retained in the final self supporting prototype. There is no reason to believe that one skilled in the art would

have clamped the assemblies together as opposed to securing the assemblies together with adhesive and/or solder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
